

The MBTI® Certification Program for Career Counselors and Educators – Online!

The only The Myers-Briggs Company-licensed program that certifies you to purchase, administer and interpret the MBTI assessment in career counseling and educational settings – entirely through distance learning!

Learn everything that is included in public certification programs, tailored specifically to career counseling applications. Learn it conveniently and at your own pace, without the expense of travel. Program content includes:

- Interactive type verification feedback
- Type basics--understanding the preference pairs
- Type and career development over the lifespan
- Type dynamics—communicating and supervising through type
- History and construction of the MBTI assessment
- Reliability and validity
- Ethical guidelines and assessment issues
- The latest in research findings and new product development

Note that MBTI Step II training is offered as a separate workshop.

Experience individual supervision by Stephen Santore, MBTI Master Practitioner; in a program created and written by Judith Grutter, M.S., MCC, author of the *Strong and MBTI Combined Career Report*, *Making It In Today's Organizations Using the Strong and the MBTI*, *Career Exploration for College Students Using the Strong and MBTI Tools*, and many other publications on career assessment.

Achieve competence and confidence that you are providing your students and clients with all that there is to discover in their *MBTI results*:

- Access to career fields and occupations
- The “heart of type” and values clarification
- The “other side of type” and managing stress
- What unclear type results really mean
- Job search strategies and barriers
- Career enrichment strategies
- And much, much more!

Receive basic MBTI certification and 48 NBCC approved clock hours (4.8 CEUs), if applicable. Step II training is an optional add-on module.

Join a large network of career professionals who have been trained by GS Consultants over the last 35+ years to use the MBTI and Strong Interest Inventory® assessments.

All this – without travel, hotel stays, and at a lower cost than certification programs have ever been offered before.

Frequently Asked Questions

- How much does the program cost? The cost for U.S. residents is \$1,070.00 plus the MBTI Manual and two interpretive booklets – approximately \$200.00 + shipping. Optional Step II training is \$295.00, which includes all materials.
- What is the program format? The program contains eight modules:
 1. Administering the MBTI Assessment
 2. What is Type?
 3. History and Construction of the MBTI Instrument
 4. The Basics of Type Theory
 5. Type Development
 6. Type Dynamics
 7. Reliability and Validity
 8. Giving Feedback on Type

The program includes brief interactive assignments, a knowledge review at the end of each module, a program exam given in three parts, and an interpretation activity.

- How is this program different from other MBTI certification programs? The core content of all MBTI certification program is exactly the same, and they all yield the same outcome: certification to purchase, administer, and interpret the MBTI assessment. The GS program teaches the core content with specific examples drawn from career development and higher education, and it is delivered entirely online.
- How long does it take to complete the program? The program is designed to take the same amount of time as public certification programs, approximately 45 hours. It is self-paced. Some participants are able to complete it in a couple of weeks; others take the full 45 hours.
- Is there a deadline for completion? You have 60 calendar days to complete the program from the day that you are officially enrolled. The online learning platform that we use will automatically drop anyone who does not complete the eight modules within 60 days or anyone who does not log in at least once every 14 calendar days. There is a fee to re-enroll.
- How much computer knowledge is necessary? You need to be able to turn your computer on and off, and access a browser such as Explorer, Mozilla, Chrome, Safari. The rest is learn as you go. You will be clicking on links to view content, submitting assignments in ordinary word processing, and interacting with the instructor mainly via email.
- How do I get feedback on my work? You will receive immediate feedback on your open-book quizzes and feedback by email after you submit your written assignments to your instructor.

- How do I register?
Complete and submit the [registration form](http://gsconsultants.net/online-mbti-certification-registration-form-step-i/) at our web site: <http://gsconsultants.net/online-mbti-certification-registration-form-step-i/>.
- What is the cancellation and refund policy? Your program registration fee, less a \$200.00 administrative fee, will be refunded if written cancellation is received at least five (5) business days prior to your scheduled start date. We cannot give refunds once you have started the program, or if you do not access the program within three (3) days of your scheduled start date. Requests to delay your scheduled start date within five (5) business days of that confirmed start date will require a \$75.00 administrative fee.
- What happens if I fail the certification requirements? It doesn't happen, we're happy to say! If you don't complete the program, all that happens is that we don't send your certification status to the publisher. If you struggle with the knowledge reviews at the end of the modules, you just keep trying until you get it. If you don't pass the exams, there are short essay retakes.
- How do others like the program? Who does best with this format? Most like our online assessment training, although we all miss the in-person interaction of our public and on-site groups. We've noticed that because of the one-to-one interaction between trainers and participants in the distance learning format, content mastery is higher. Those who do the best set specific goals and timelines for themselves and *follow them*.
